

Bridge LEVEL 2
WINTER 2019
WINTER: 1/4-2/17

The Skating Club at Dartmouth (SCAD), a US Figure Skating member club, offers top quality instruction and small group ice skating lessons following the Learn to Skate USA curriculum endorsed by US Figure Skating, USA Hockey and US Speedskating. The group classes teach children the fundamentals of skating, building confidence through each lesson. With this foundation, skaters can choose to skate recreationally or to focus on figure skating, hockey or speedskating.

BRIDGE LEVEL 2 PROGRAM: The Skating Club at Dartmouth will be offering a Bridge LEVEL 2 program for the Winter. It is available to skaters who have passed Freeskate 1 AND/OR Pre-preliminary Moves in the Field but have not passed pre-juvenile AND pre-juvenile freestyle or higher. This class is designed for skaters who are looking to work more on their skills and to learn moves in the preliminary moves, freestyle, and FREESKATE 3 and higher. This group class will be offered on Sundays during our freestyle session, giving skaters a chance to skate with the freestyle skaters and learn how to practice on freestyle ice. The group lesson will work on elements in the US Figure Skating Freeskate 3 and above level as well as practice moves in the field and freestyle elements beyond the pre-preliminary level. This group class is offered on SCAD Freestyle ice. Each session will begin with a 30 minute warm up/open skate time followed by 30 min group lesson.

Enrollment in this class is capped at 4 skaters.

Schedule

SUNDAYS – 8:00-9:00 am at Thompson Arena—begins with a 30 min practice time and a 30 min group lesson. No formal testing will be done. NO LESSON ON Sunday Feb. 3rd. If you would like to skate on Feb. 3rd a walk on fee or coupon is needed.

Lesson Pricing

	WINTER
Sundays 8:00-9:00 AM	\$240 – 6 weeks thru Feb. 17 th

Registration Deadline

The registration **deadline is FRIDAY DEC. 21st**. Registrations will be accepted after the deadline on a space available basis and subject to a \$15 late fee.

Registration Requirements

Bridge is a program for skaters who have passed FREESKATE 1 and/or Pre-Preliminary Moves in the field BUT have not passed Pre-Juvenile Moves and/or Pre-Juvenile Freestyle. Must also hold a USFS membership or learn to skate membership. Skaters **MUST** be currently enrolled in Learn to Skate program or be a registered freestyle skater.

Evaluations

There will be no official evaluations for this program

Policies

The following policies have been officially adopted by the Skating Club at Dartmouth. Please review them carefully before enrolling:

- Helmets are required for all Basic 1-6, Hockey and Speed Skating skaters. Helmets are strongly encouraged for all other skaters in the program.
- Skaters must have signed Waiver of Liability and Emergency Contact forms on file.
- Skaters must follow all posted rules of the rink.
- For children 8-years old and younger, a parent, legal guardian or other specifically appointed person must be in the rink during the skating session. Unless skaters are in a group or private lesson, they are not directly accounted for by an adult.
- The Skating Club is not responsible for any child, of any age, left at the rink unattended.
- Parents and other spectators may watch from the boards, seating areas or bleachers. Please do not sit in the first players' box near to the rink entrance: this area is used by the coaches and kept available for emergencies.
- There are NO refunds, except for authorized medical reasons with a physician's note.
- Unfortunately, SCAD is NOT able to accommodate make-ups or substitutions for missed sessions.
- In the case of inclement weather, please call Campion Rink to confirm that the rink is open (603-643-1222). As a general rule, if the rink is open, SCAD sessions will be held.
- Occasionally there are changes or cancellations to our schedule. Please review the online calendar regularly and look for emails notifying members of changes. Email notifications will be sent from our registration system to the primary account holder's email address.
- SCAD reserves the right to alter the schedule as necessary –or- to cancel any program for any reason, including insufficient enrollment, coaching coverage or ice availability. SCAD will refund all fees for canceled programs.

Scholarships & Family Discounts

Need Based Scholarship Assistance

Need-based scholarship assistance is available through the Frannie Burnett Skaters Scholarship Fund. This fund is committed to making skating financially accessible. Regardless of your experience or skating level, we encourage all skaters with financial need to apply. Be assured that all inquiries, applications and awards are handled confidentially. The fund can assist with lesson fees, private lessons and/or equipment. Applications are available at: <http://www.skatingclubatdartmouth.org/registration>.

Please note: Frannie fund will award up to 50% of tuition. Families are required to pay the USFS membership plus 50% of tuition at time of registration. Once scholarship is awarded, the family will be required to pay any remaining balance.

Family Discounts

For multiple skaters in the same household, SCAD offers a \$12.50 discount for each additional skater (e.g. if you register 3 skaters, the second and third skaters would each receive a \$12.50 discount on their lesson fees).

Freestyle Skating Option and Private Lessons

Skaters who have passed Basic 6 and above and who would like more practice time can sign-up for Open Freestyle times (which are held on Sundays). Freestyle sessions are a good opportunity for skaters wishing to progress quickly: sessions offer skaters time to practice their skills and/or take private lessons. Skaters who have passed Freeski 2 or higher are eligible to skate on our Freestyle Test sessions (which are held, Monday, Tuesday, Thursday, Friday, and Sundays). There is a separate sign-up form for Freestyle sessions. Pre-Free Skate thru Free Skate 2 skaters must also be registered for group lessons in order to skate on Freestyle ice.

If you are interested in private lessons, they are arranged directly between a skater and a coach. Our website has more information about our professional staff and our Executive Director is available to answer questions about how it works. Skaters may also use the practice free skate ice time during their Basic Skills/Free Skate session(s) for private lessons (note: the total number of private lessons that can be running concurrently on Basic Skills ice is limited to four).
