

SCAD COVID Policy Updated 2/14/22

If you or your child test positive for COVID-19, please let SCAD know as soon as possible.

Regardless of vaccination status or symptoms, one should isolate for at least 5 days if they test positive for COVID-19 (or have symptoms of COVID-19 while awaiting testing). The first day a skater shows symptoms or test positive counts as day 0. Skaters may return to skating after day 5 only if the following conditions are met:

- a. A skater can provide a negative antigen test after day 5 as long as they are feeling better, fever-free (off fever-reducing medications) for at least 24 hours and have improved symptoms.
- b. If a skater chooses not to provide a rapid test after day 5, they can return to skating after day 10.
- c. Skaters must continue to be masked at all times
- d. Skaters will NOT use the locker room until after day 10.
- e. SCAD will follow all CDC guidelines for close contacts.
